

CA Doors

Durable • Made in USA

Benefits of a Tuff CA Door

- Light weight welded aluminum frame and skin
- Custom built per customer spec.
- Can be insulated or non insulated
- Low cost
- Gas tight
- 6" access port
- (2) 2" FPT fittings
- Durable
- Included viewing window

TUFF CA Doors are constructed from high quality aluminum for strength and durability. Insulated or non-insulated these lightweight doors provide a gas tight seal. Using either a TAI clip and wingnut combination or a turn buckle arrangement the door is mounted from the inside onto a jam, which has a rubber gasket. This gasket requires no grease or petroleum compounds. The bottom of the door is sealed to the floor with a compound or rubber tubing.

Other Tuff Products Available:
